

Neutrogena *insider*TM

It's all about the ingredients

Renew skin, reverse damage

Retinol

Retinol is the #1 dermatologist recommended anti-aging ingredient. Retinol is made from vitamin A. It minimizes signs of aging by improving skin appearance and accelerating skin renewal. Some retinol products can cause irritation.

Neutrogena[®] Accelerated Retinol Sustained Action is a unique formulation that increases the speed with which retinol works. It delivers superior efficacy without irritation, which is why Neutrogena[®] is the #1 dermatologist recommended brand for fine lines and wrinkles.

The benefits of formulas with accelerated retinol SA :

- Reduction in the appearance of fine lines and wrinkles
- Radiant, younger-looking skin
- Reduction in the look of dark spots and discoloration

INSIDER SCIENCE

NEUTROGENA[®] ACCELERATED RETINOL SA TECHNOLOGY

Accelerated Retinol SA is ideal for those who want rapid results without the skin irritation associated with other retinol formulations. Available in the full Rapid Wrinkle Repair line:

Vitamin C

Vitamin C helps to gently diminish the look of dark spots and discoloration.

INSIDER SCIENCE

NEUTROGENA[®] RAPID TONE REPAIR

Rapid Tone Repair brightens skin tone with a high-potency, fast-absorbing formulation. It combines our highest concentration of vitamin C with accelerated retinol SA to help gently diminish the look of dark spots and discoloration and renew the look of skin.
