

Neutrogena *insider*TM

It's all about the ingredients

Broad spectrum protection

INSIDER SCIENCE

NEUTROGENA[®] PURESCREEN[®] TECHNOLOGY

Purescreen[®] Technology provides broad-spectrum mineral protection against both UVA and UVB rays. It's proven to be gentle, making it ideal for those with sensitive skin.

- Absorbs, reflects, and scatters UVA and UVB rays before they touch the skin
- Nongreasy formulation that is easy to spread on the skin

INSIDER SCIENCE

NEUTROGENA[®] DRY-TOUCH

Powerful sun protection you'll actually love wearing. Neutrogena[®] Ultra Sheer[®] has Dry Touch technology, to provide powerful sun protection paired with a lightweight, nonshiny finish.

- Feels clean & light: goes on easily and absorbs quickly for an invisible, weightless feel on your skin
- Oil-free formula leaves a non-greasy, matte finish.
- Won't clog pores: PABA free and noncomedogenic

- For specific ingredient questions check out the 'Asked in the Aisle' page.
